

THE MISERY OF BACKACHE

Removed by Lydia E. Pinkham's Vegetable Compound.

Muskegon, Mich.—"For six years I was so weak in my back at times that I could hardly walk. Lydia E. Pinkham's Vegetable Compound was recommended to me and it made me good and strong again so that I am able to do all my work. I highly recommend your medicine and tell everyone I meet what it did for me."
—Mrs. G. SCHOONFIELD, 240 Wood Ave., Muskegon, Mich.

Woman's Precious Gift

The one which she should most carefully guard is her health, but she often neglects to do so in season until some ailment peculiar to her sex has fastened itself upon her. When so affected women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

"I suppose," said the man who was buying a parrot, "that it will be easier for the bird to learn short words?"
"Oh, not at all!" the dealer responded cheerfully. "I've found that they take most naturally to polysyllables."

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and will make harsh hair soft and glossy. It will not coar or the scalp, is not sticky or greasy, and does not rub off.—Adv.

HOME MADE TEA FOR CONSTIPATION

Is used by entire families because it is purely vegetable, does the work and costs very little.

Why pay high prices for Liver and Bowel remedies when none are better than Dr. Carter's K. and B. tea, which is purely vegetable, can be brewed at home, and a small package will last a long time.

Thousands of old people will tell you they have been drinking it for years, and after the liver and bowels have been put in fine condition in a few days by a before bedtime cup, that only an occasional cup in afterwards necessary to keep one feeling fit and fine.

People who drink a cup of Dr. Carter's K. and B. Tea once in a while, seldom, if ever, have any bilious attacks, sick headache or sallow skin. It's good for boys and girls, especially those who are peevish and fretful. Druggists have been selling it for many years.

Mayflower Is to Sail This Year

New One Will Cross Atlantic in the England-Holland-United States Celebration.

SHIP'S 300TH ANNIVERSARY

Plans Announced for Celebration in Honor of Pilgrim Fathers—Main American Events Will Be in Boston and Plymouth.

New York.—The three hundredth anniversary of the Pilgrim Fathers, tentative plans of which have just been announced here, will include celebrations in England, Holland and the United States, and will continue from May to December, 1920.

A four-day program in Leyden, Amsterdam and Rotterdam, whence the Pilgrims sailed three centuries ago to the American wilderness, where they might find "freedom to worship God," will start on August 30, when communities from the United States and England will be received at the University of Leyden.

Scholars Will Deliver Addresses.

Addresses commemorative of the occasion will be delivered by scholars from the three countries, including the rector of the university, Dr. Rendel Harris of Manchester, England; Viscount Bryce, and a famous American who has not yet been designated.

The next day, August 31, the birthday of the queen of the Netherlands, will include, besides a congress in the town hall, a religious memorial service in the Pieterskerk, in which Rev. John Robinson, who led the separatists from the Church of England (the Pilgrims) to Holland in 1609, was buried.

One of the features of the holiday at Amsterdam, September 1, will be a meeting in the Rijksmuseum, the unveiling of a memorial window in the Bagijnkerk and a reception. The next day there will be an aquatic pageant in Rotterdam, the visitors traveling in the morning from Leyden to Delftshaven if possible by boat along the way the Pilgrims went.

Then there will be trips to the re-

London.—While engaged on a large picture dealing with the fate of Edith X. Cavell, Mr. Van Rulth, a veteran painter, discovered that his eyesight was failing. Oculists predicted that the painter, who is eighty years of age, would lose his sight in a few months. Nevertheless he persevered and added the last touches to his work on the anniversary of the armistice.

The celebration in England will start in May, 1920, with meetings in Scrooby, the home of Robinson; Austerfield, Boston and Sheffield.

From August 4 to September 20 there will be ceremonies in Cambridge, London, Southampton and other places,

Soap Bubbles Kept Intact Whole Year

Scientific Society Gives Information on Sir James Dewar's Test.

ALWAYS MYSTERY TO SCIENCE

When Bubble Becomes Very Old It Offers Only Possible Example of the Molecule Visible to the Naked Eye.

Philadelphia, Pa.—Facts about the prodigious strength of soap bubbles, proved by experiments in which bubbles were kept intact for more than a year and subjected to all sorts of weight strains, were made public here for the first time by the Franklin Institute, one of the oldest scientific societies in the United States.

Important to Chemists.

Coming on the heels of the announcement of Einstein's discoveries of the gravitational bending of light, the exploitation of the soap bubble is on the other end of the scale as to size, yet, according to scientists, is of tremendous importance to chemists, physicists and research workers in the strength of materials and essential elements. The man who made the experiment is universally recognized as one of the leading scientists in the world. He is Sir James Dewar, LL. D., D. Sc.

culminating in the sailing of the new Mayflower, which will carry the returning American committee and British delegations who are to participate in the program on this side of the Atlantic.

Main events of the American celebration will be in Plymouth, Mass., and Boston, where historical pageants will be held, followed by a big reception in New York. Vice President Marshall is honorary chairman of the committee having the local program in charge.

The foreign visitors will then be taken on a tour of the United States. On November 24, 1920, there will be a universal observance of Thanksgiving day in England, Holland and the United States.

68,000 GIRLS MISSING IN YEAR

That United States Record Leads Travelers' Aid Society to Take Action.

New York.—Approximately 68,000 girls have disappeared or run away from their homes in the United States during the last year, according to a statement issued by the Travelers' Aid society.

A special meeting of the society has been called to devise plans to meet demands made by the great increase in runaways and helpless travelers. The meeting will be attended by officials of the transatlantic lines and representatives of Protestant, Catholic and Jewish social agencies.

F. R. S., Fullerton Professor of Chemistry, Royal Institution of Great Britain, and an honorary member of the Franklin Institute.

The soap bubble is a simple thing, yet it has always been more or less a mystery to scientists. They consider it perhaps the best phenomenon existing for the study of the habits and idiosyncrasies of the molecule.

Scientists now claim, on the strength of the experiment made by Sir James Dewar, that when a soap bubble becomes very old, say in three or four days, it offers the only possible example of the molecule visible to the naked eye. Most parts of the bubble are estimated to consist of about one hundred layers of molecules. But by various methods of treatment the bubble is induced to perform "stunts" until in black spots which appear it represents only a single layer of molecules.

Remarkable Strength.

This layer is so thin that Sir James estimates it would take one and one-third million like it, superimposed, to make an inch. Yet, when the soap bubble is permitted to mature in air that has been freed of its natural enemies, it is so strong that it will support drops of water many times its own weight before breaking. Sometimes a bubble is torn from its supporting ring by the weight before the molecules release their bulging grip.

Old Letter Settles Case.

Wilmington, Del.—An age-worn, tattered letter and three words in the codicil of Jesse Chandler settled a long-pending case in the court of chancery recently when Chancellor Curtis issued an order that Samuel M. Harvey of West Chester, Pa., be paid \$14,500 from the estate. Harvey's wife, one of the 38 legatees he was suing, lost the suit, but will have a half share in the money awarded. Harvey had agreed with Jesse Chandler to buy 160 acres of farmland in Christiansa Hundred for \$20,000. When Chandler died before the deal was completed he stipulated in his will that the farm should be sold for that amount to Harvey. Meanwhile the farm had been sold for \$34,500, and while the legatees contended that the entire amount should be divided, Harvey claimed that only \$20,000, or his agreed purchase price, should be divided. The court upheld his contention.

BIRDS SHOW INCREASE

Beneficial Effects of Migratory Act Being Felt.

Waterfowl Have Been Breeding Rapidly Under Protection, the Bureau Declares.

Washington.—The beneficial effects of the migratory bird treaty act are beginning to be felt. The United States department of agriculture, through its bureau of biological survey, has conducted investigations of the breeding areas of ducks in North Dakota and Nebraska. Compared with former years, a gratifying increase of breeding waterfowl, particularly in North Dakota, is evident. The fifth annual series of counts of birds of all species breeding on selected areas in various parts of the United States contained a large proportion of reports showing increases in bird population. The total

number of reports received, however, was not large. Many of the persons who had formerly taken part in the annual bird counts were unable to find time for the work required by the fifth count.

"Many species of migratory birds," reports the chief of the bureau of biological survey, "have had a marked increase under the existing treaty act. Waterfowl formerly driven to the far North by spring shooting have remained in steadily increasing numbers to breed in localities where none had previously nested for many years."

Grasping Landlady Sentenced.

Budapest, Hungary.—Dr. Charlotte Szecsi, a physician, has been sentenced to two months' imprisonment because she refused to rent an apartment to a tenant unless he would buy her furniture for 100,000 crowns (nominal \$20,000). The action of the court is in line with the effort to provide housing for the over-congested city.

English to the French.

Many soldiers brought home French brides and now are busy teaching them to talk English. One of the mothers is trying hard to help her daughter-in-law. Also she is trying to teach her little French daughter-in-law to cook American dishes.

The other evening she was showing her how to cook oatmeal and how to stir it with a spoon.

"You stir it, Josephine," she told her. "Remember—stir."

A few minutes later the family dog walked into the kitchen wagging his tail in a friendly manner. Josephine regarded him a minute, and then said: "Oh, zee-see dog stir wiz his tail."

So Subtle!

"Not all the poets," observed a frequent of cosmopolitan society "have the gift of uttering quick, light-winged, magical nothings in society. I knew of one poet, greatly in vogue in Paris some years ago, who was not exactly a fluent dispenser of epigram. He was invited to the house of a great lady of the Faubourg St. Germain, and as soon as he entered he became the center of a circle of admirers, who waited vainly for some subtle or poetic conceit. The poet remained silent, ill at ease, red in the face, and uneasy of feet.

"Come, my dear poet," the hostess finally begged, say something to us!" "Have you observed—duchesse," he faltered, desperately, "that—this—year's pawn tickets are pink?"

Was Going Down-Hill

Mrs. Bergman's Friends Were Worried, but Doan's Brought Remarkable Recovery From Kidney Complaint.

"I couldn't sit down without putting a pillow behind my back," says Mrs. Ole Bergman, 820 Pennsylvania St., Gary, Ind. "When I bent over it felt as though somebody had stuck a knife right into my back and I would often fall to the floor. The kidney secretions made me get up four and five times a night. There would be only a small amount, which would burn so that I would almost scream. Before long my body bloated and my feet were so swollen that I couldn't wear my shoes. My skin looked shiny and when I pressed it down it left a dent. I had chills and fever. Sometimes I would sweat so that I could fairly wring the water out of my clothes. Everybody said I was going down-hill fast. In two months I lost fifteen pounds and was discouraged. By the time I had finished three boxes of Doan's Kidney Pills I was entirely cured and I have enjoyed the best of health ever since."
